

## CRUDE TANK CONSTRUCTION

CLIENT - Enbridge

LOCATION - Stockbridge, MI

### DESCRIPTION

Matrix NAC was awarded the construction of 5 crude tanks for Enbridge in Stockbridge, MI. Matrix NAC self-performed the final 20% scope of work. The civil site scope to accommodate new tanks included approximately 300,000 direct Matrix NAC person hours.

### PRINCIPAL FEATURES

- Construction of five 223' x 56' aboveground storage tanks including ringwall foundation, internal floating roofs for each one
- Installation of 1,100 subgrade controlled modulus column (CMC) supports beneath northernmost tank to overcome inadequate subsurface layer
- Hydrotesting
- Painting tanks
- Cut/fill to balance 20-acre site
- Protection of existing pipelines crossing site
- Approximately 300,000 direct Matrix NAC person-hours
