

HURRICANE SANDY

CLIENT - Multiple Clients
LOCATION - Atlantic Coast
COMPLETED - October 2012

DESCRIPTION

When Hurricane Sandy hit the Atlantic coast in 2012, it was the deadliest and most destructive hurricane of the season, and the second-costliest in U.S. history. Across the Northeast, Matrix NAC's transmission and distribution teams went to work responding to emergency situations, repairing downed lines and poles, and restoring power to the more than 7.9 million customers in the dark.

PRINCIPAL FEATURES

- Served (5) utility companies (PSEG, FE, ACE, LIPE, and NU)
- 300 crew members provided with 24/7 availability
- Provided experienced team leaders
- Maintained existing utility certifications to speed work
