

# ENERGY SERVICES

Matrix NAC has deep roots in the oil, gas and chemical industries dating back to 1919. We've been delivering best-in-class solutions to midstream and downstream oil and gas markets ever since. We perform small capital repair and construction, large capital projects, turnaround and plant services and industrial cleaning projects for the oil, gas and chemical industries.

For decades, Matrix NAC has been an industry leader in providing engineering, fabrication, construction, maintenance, modification, repair and relocation services for aboveground storage tanks (ASTs) and specialty vessels.

**Safety. Integrity. Positive relationships. Community involvement. Stewardship. Delivering the best. These core values have forged our lasting reputation for excellence in the industry.**

**A HIGHER STANDARD IN CONSTRUCTION.**

# BEST IN CLASS SOLUTIONS FOR MIDSTREAM AND DOWNSTREAM MARKETS

As the direct hire union subsidiary of Matrix Service Company (Nasdaq: MTRX), Matrix NAC is a top-tier contractor providing procurement, construction, turnaround services, maintenance and repair to North American energy, power and industrial markets. We maintain strong relationships with labor organizations to ensure ready access to highly skilled labor resources throughout North America, allowing us to bring top-level talent to every project we undertake.

Our proven commitment to safety, efficiency, and quality has been earned by working hand-in-hand with our customers to identify and implement effective solutions, ensure alignment on project goals and complete our work safely, on time and on budget.

## Our services include:

- Engineering
- Procurement
- Fabrication (including ASME code pressure vessels)
- Construction:
  - Civil
  - Structural
  - Mechanical
  - Electrical
  - Equipment erection
  - Piping

- Maintenance and repair:
  - Tanks and terminals
  - Refineries
- Turnarounds:
  - Shell and tube heat exchanger bundle pulling and cleaning
  - Air cooled fin fan cleaning, retube and repair
  - Tower, vessel repair and retrofit
  - Alkylation, FCCU and Coker revamps
  - ASME code pressure vessel repairs and recertification
  - Heater, boiler, revamps and recertification
- Industrial cleaning:
  - Hydroblasting
  - Vacuuming
  - Advanced chemical cleaning
  - Tank cleaning

## Integrated solutions:

- Aboveground storage tanks (AST)
- Specialty vessels including ASME spheres
- Material handling systems
- Primary and secondary AST seal systems
- Aluminum domes and floating roofs
